

### Ultima Solid Top (USHO)

In order to move the Ultima Solid Hob through a tight doorway, the unit has been designed with parts that are removable. The minimum the unit can be stripped back to is 790mm depth and 757mm height. All of the parts either simply lift out, or have screws locating them in place. Please ensure the unit is fully rebuilt before attempting to use the unit.

<u>Number</u>	<u>Part</u>	<u>Number</u>	<u>Part</u>
